PRESSURE SENSORS / Type XSK

Type XSK-AC**B

Type XSK-AC**I

FEATURES

- Current output (4 to 20mA DC)
- Supports a power supply voltage of 10.5 to 28.0 V.DC.
- Small lot orders available.
- Compatible with a variety of connection types. (Stainless steel wetted parts are also available.)
- Standards: CE, UL/cUL (Please contact us for details.)

APPLICATIONS

- Packaged air conditioners
- Water boilers
- Water supply pumps
- Chillers, etc.

COMMON SPECIFICATIONS

Accuracy: ±3%F.S.

(including non-linearity, temperature characteristics, hysteresis, and repeatability)

- Fluid temperature : -20 to 70℃
- Ambient temperature : -20 to 70℃
- Current consumption: 10mA or less
- Fitting materials: Brass, stainless steel
- Fluids: Refrigerant, air, water, oil, inert gas
- *Please refer to the table on the right for compatible refrigerants.
- *Not suitable for corrosive fluids.
- *When using with water, please choose stainless steel connections.
- Absolute pressure type :

1 atmosphere (1013 hPa abs) is set as 0 MPa.

• Enclosure: IP66
