

Components for CO2 application

SAGInoMIYA

CCB, CKB - High Pressure Switch -

CCB

CKB

CCB: Small pressure switch
Copper piping connection

CKB: Narrow pressure differential
Available for Manual reset type

HPV - Solenoid Valves -

4 different Cv value lineup (0.028-0.54)

Effective to the oil circuit control and
hot-gas bypass evaporator defrosting.

HSK - High Pressure Sensors -

3 pressure ranges
(0-60, 0-100, 0-150 bar)

IP66 structure

UKV-J, JKV - Electronic Expansion Valves -

UKV-J

JKV

6 port size line up

Capacity range : 3 to 110 kW
